Minority Group Students: Reaffirmation of the points of the program for the recruitment, admission and financial aid of minority students.

Beginning in 1968 Brown University has developed and implemented a program for the recruitment, admission, and financial aid of minority group students. One measure of the program is that in the past two years black students have been enrolled as freshmen at annual rates between 110 and 120.

Brown University now reaffirms the essential elements of this program:

1. Recruiting efforts will be maintained at a level which will insure an adequate and growing number of qualified minority group applicants, and every reasonable effort will be made to maintain the numbers of each minority group enrolled in the entering classes at least at the levels achieved in recent years.

More generally, Brown University reaffirms its principal teaching objective of providing a superior educational experience to qualified students without regard to race, color, creed, national origin, or sex, and that Brown will make a special effort, within the limits of its financial resources, to expand this opportunity for members of all minority groups. This effort will apply to all students -- regular, transfer, resumed education, advanced secondary school students, and special students.

2. The University recognizes that achievement of the objectives stated in paragraph 1 will require a continuing commitment of adequate financial resources.

With respect to other aspects of the minority group program, Brown University also reaffirms:

1. The continuance, with appropriate support, of a program in Afro-American Studies.
2. The continuance of a supportive service program, presently in the form of a transitional summer program.
3. In order to strengthen the Brown-Tougaloo relationship, the President of the University will appoint a new Tougaloo-Brown committee to replace the present committee. A main element in its charge will be a thorough review of the program with recommendations for its improvement.
4. In view of the fact that only fourteen new black graduate students matriculated this year, the graduate school admission policies will be re-examined ^{if necessary,} and revised.
5. The continuance in good faith of the University's Affirmative Action Program with respect to minority group faculty and staff and employees.
6. First priority for the use of space in Churchill House will go to the Afro-American Studies Program, the Organization of United African People, the Graduate Minority Students' Association, and the Rites and Reason Performing Group.
